A Bit About Vubiz

The company, created in late 1995, has years of direct experience in the design, development, evaluation and distribution of customized training programs, and over forty combined years of project management and delivery of IT applications in Canada and internationally.

What Sets Us Apart from Other e-Learning Companies?

The quality and capability of our instructional design and multimedia teams in creating multilingual soft skills content for Web-based learning and other forms of distance education

Control and ownership of our Online Library with over 900 hours of learning

Control and ownership of our multilingual Learning Management System (LMS)

Control and ownership of our Authoring Service (vuBuild) - critical to our clients and end users

The international reputation and experience of our entrepreneurial team is key to why our clients are the 'who's who' of corporations, associations and governments

Client Testimonials

"... As far as the training site goes, I think it is a fantastic resource that greatly streamlines our training process - giving Small Business Assistants not only a highly standardized level of instruction, but also a taste of the technology that we are using to help SMEs. As well, the site just keeps getting better and better with each revision ... I am absolutely delighted with the level of customer service Vubiz has extended toward me, and their responsiveness to my suggestions and questions is fantastic."

Steven Morehouse

Program Coordinator, SCP, BC

"I am enjoying my review of the Vubiz courses. The content is excellent and seems well suited for my purposes."

Dale Northey, Faculty

*Management and Business Studies,
Sir Sandford Fleming College*

"... I would like you to know that it was a real pleasure working with Ken [Vubiz] and we really appreciated the very professional CD that he produced for our team ... Ken's assistance allowed our presentation to stand out from the rest and proved that e-learning works!"

Manager of Transition and Training

Ministry of Finance

"I have taken a number of your Web based training courses through the RMOC Entrepreneurship Centre in Ottawa. I liked the format and structure and had a good learning experience."

David Curling

PMFORUM Webmaster

"The overwhelming positive feedback from the Atlantic pilot is the proof that the program is relevant and that it meets the needs of the field force ... the program looks great. I was very impressed with the simplicity and the rich content when I took a tour. Many thanks!!"

Group Product Manager

GlaxoSmithKline

Instructional Design

Our courses are designed for self-paced asynchronous learning, incorporating high levels of interactivity and include text, graphics, animation, hypermedia links, quizzes, audio files, tests, evaluations and feedback. Higher-end, rich media is also available. The design involves engaging content, a user friendly interface design and simple navigation system. All modules are available 7/24 from any Internet connection, and also available on CD.

Our Clients

Vubiz invests heavily in building long-term relationships and developing the necessary content and platform to grow with our 60+ clients. Our Corporate clients want customized e-learning services such as courseware production, e-learning consulting, courseware hosting, content distribution or special platforms/software and systems requirements (tracking and reporting systems), as well as collaboration tools such as document repositories, calendars, email alert and dialogue messaging.

Our Channel clients are organizations that maintain a membership or customer base and want to distribute courseware and revenue share with Vubiz.
