

Vubiz Launches Knowledge Network for Stewardship Ontario

VuBiz to help return Ontario to the forefront of residential recycling ...

Mississauga, ON (VB) - Vubiz, of Mississauga, Ontario, has developed and launched a Knowledge Network to help return Ontario to the forefront of residential recycling in Canada and internally. Developed for Stewardship Ontario, the Association of Municipalities of Ontario and Waste Diversion Ontario, the Knowledge Network allows Ontario municipalities to “capture” and apply innovative solutions to the design, management and operation of residential recycling programs.

Jim Rapino, President and CEO of Vubiz says “the Knowledge Network is a learning “hub” that combines the best features of web sites and computer-based learning. Its signature design feature is the responsiveness to interests and issues of Ontario municipalities involved in waste diversion.” In addition to being a vendor of record for the Government of Canada as well as the governments of Ontario, Alberta and British Columbia,” says Rapino, “we now look forward to delivering our unique employee training tools and know-how to the communities in which we live.”

In addition to education modules that outline lessons learned, the Knowledge Network’s features include threaded discussion, job aids, tools and templates; surveys; and e-mail alerts all of which can be used to respond to a learning need or information sharing opportunity.
